

UNITED NATIONS CONFERENCE ON TRADE AND DEVELOPMENT

VIRTUAL INSTITUTE TEACHING MATERIAL ON
**STRUCTURAL TRANSFORMATION
AND INDUSTRIAL POLICY**

UNITED NATIONS

New York and Geneva, 2016

NOTE

The views expressed in this volume are those of the authors and do not necessarily reflect those of the United Nations.

The designations employed and the presentation of the material do not imply the expression of any opinion on the part of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Material in this publication may be freely quoted or reprinted, but acknowledgement of the UNCTAD Virtual Institute is requested, together with a reference to the document number. A copy of the publication containing the quotation or reprint should be sent to the UNCTAD Virtual Institute, Division on Globalization and Development Strategies, Palais des Nations, 1211 Geneva 10, Switzerland.

This publication has been edited externally.

The UNCTAD Virtual Institute (<http://vi.unctad.org>) is a capacity-building and networking programme that aims to strengthen teaching and research of international trade and development issues at academic institutions in developing countries and countries with economies in transition, and to foster links between research and policymaking. For further information, please contact vi@unctad.org.

ACKNOWLEDGEMENTS

The teaching material on structural transformation and industrial policy was developed by the UNCTAD Virtual Institute, under the overall guidance of Vlasta Macku. The text was researched and written by Francesca Guadagno from the Virtual Institute, with supervision by Piergiuseppe Fortunato of UNCTAD's Division on Globalization and Development Strategies. Contributions were also provided by Milford Bateman of Saint Mary's University (Canada), Codrina Rada of the University of Utah (United States) and Kasper Vrolijk of the School of Oriental and African Studies, University of London (United Kingdom). The material benefitted from comments by Richard Kozul-Wright, Director of UNCTAD's Division on Globalization and Development Strategies. The text was English-edited by David Einhorn, and the design and layout were created by Hadrien Gliozzo.

The financial contribution of the Government of Finland is gratefully acknowledged.

INTRODUCTION	1
--------------	---

1 MODULE

<i>The structural transformation process: trends, theory, and empirical findings</i>	3
1 Introduction	4
2 Conceptual framework and trends of structural transformation	4
2.1 Definitions and key concepts	4
2.2 Measures of structural transformation	10
2.3 Global trends in structural transformation	11
2.4 Structural transformation and economic growth	17
3 Review of the literature	20
3.1 Structural transformation in development theories	20
3.2 Empirical literature on structural transformation	29
3.3 Premature deindustrialization and the (possible) role of services as the new engine of economic growth	37
4 Structural transformation and development	40
4.1 Structural transformation, employment and poverty	41
4.2 Structural transformation and human development	43
5 Conclusions	47
Exercises and questions for discussion	48
ANNEX An illustration of how to decompose labour productivity growth and discuss empirical results	50
REFERENCES	57

2 MODULE

<i>Industrial policy: a theoretical and practical framework to analyse and apply industrial policy</i>	67
1 Introduction	67
2 What is industrial policy?	68
2.1 Defining industrial policy	68
2.2 Industrial policy instruments	71
2.3 Implementing industrial policy	73
3 Why adopt an industrial policy?	75
3.1 A historical perspective	75
3.2 Arguments in favour of industrial policy	82
3.3 Arguments against industrial policy	86
4 Some cases of industrial policies	88
4.1 The state as regulator and enabler	88
4.2 The state as financier	89
4.3 The state as producer and consumer	95
4.4 The state as innovator	98
5 Current challenges to industrialization and industrial policy in developing countries	105
5.1 Challenges from internal conditions	105
5.2 Challenges from external conditions	108
6 Conclusions	114
Exercises and questions for discussion	115
ANNEX Industrial policy at the local level	117
REFERENCES	120

LIST OF FIGURES

Figure 1	Relative labour productivity by sector, 1991–2010	5
