VIRTUAL INSTITUTE TEACHING MATERIAL ON
TRADE AND GENDER

VOLUME 2
Empirical Analysis of the Trade and Gender Links
NOTE

The views expressed in this volume are those of the author and do not necessarily reflect those of the United Nations.

The designations employed and the presentation of the material do not imply the expression of any opinion on the part of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Material in this publication may be freely quoted or reprinted, but acknowledgement of the UNCTAD Virtual Institute is requested, together with a reference to the document number. A copy of the publication containing the quotation or reprint should be sent to the UNCTAD Virtual Institute, Division on Globalization and Development Strategies, Palais des Nations, 1211 Geneva 10, Switzerland.

This publication has been edited externally.

The UNCTAD Virtual Institute is a capacity-building and networking programme that aims to strengthen teaching and research of international trade and development issues at academic institutions in developing countries and countries with economies in transition, and to foster links between research and policymaking.

For further information about the UNCTAD Virtual Institute, please contact:

Ms. Vlasta Macku
Chief, Virtual Institute
Division on Globalization and Development Strategies
E-mail: vlasta.macku@unctad.org
Website: http://vi.unctad.org

The Trade, Gender and Development Section carries out UNCTAD’s work programme on trade and gender with the aim of making trade policy a force for inclusive development.

For further information about the UNCTAD work programme on trade, gender and development, please contact:

Ms. Simonetta Zarrilli
Chief, Trade, Gender and Development Section
Division on International Trade in Goods and Services, and Commodities
E-mail: simonetta.zarrilli@unctad.org
Website: http://unctad.org/gender
ACKNOWLEDGEMENTS

The teaching material on Trade and Gender was jointly developed by the UNCTAD Virtual Institute, under the supervision of Vlasta Macku, and the Trade, Gender and Development Section of UNCTAD’s Division on International Trade in Goods and Services, and Commodities, under the supervision of Simonetta Zarrilli.

The second volume of the material, titled “The empirical analysis of the trade and gender links”, was written by Nicolas Depetris Chauvin from the University of Buenos Aires, Argentina. The volume was reviewed by an UNCTAD team including Simonetta Zarrilli, Irene Musselli, Elizabeth Jane Casabianca, Rohan Gudiband, Mariangela Linoci, and Sheba Tejani. Cristian Ugarte, Vlasta Macku, and David Zavaleta from the UNCTAD Virtual Institute provided additional comments. Design and layout were created by Hadrien Gliozzo, and the publication process was managed by Nora Circosta.

The financial contribution of the Government of Finland is gratefully acknowledged.
TABLE OF CONTENTS

NOTE ii
ACKNOWLEDGEMENTS iii
LIST OF BOXES vi
LIST OF FIGURES vi
LIST OF TABLES vi
LIST OF ABBREVIATIONS vii

Introduction to empirical analysis 1

1 Introduction 2
2 Overview of empirical methodologies 2
  2.1 Microeconomic approach 3
  2.2 Macroeconomic approach 5
  2.3 Sectoral approach 6
3 Data sources 7
  3.1 Trade data 7
  3.2 Trade models 8
  3.3 Micro-level data 9
  3.4 Macro-level data 11
4 The Stata statistical package 12
  4.1 Online references to learn Stata 12
  4.2 How to use Stata 13
5 Conclusions 17

REFERENCES 19

The microeconomic approach 21

1 Introduction 22
2 Review of the literature 22
3 From trade policy to prices 24
4 From prices to welfare impact 25
5 Methodological approach: Non-parametric regressions 28
  5.1 Basic idea of density estimations 28
  5.2 Intuition behind non-parametric regressions 29
6 Hands-on application: UNCTAD (2011) 30
  6.1 Context and overview 30
  6.2 Data sources 31
  6.3 Step-by-step explanation of how to do the estimations in Stata 31
  6.4 Discussion of findings and limitations of the analysis 44
7 Conclusions 45

Annex A: Modelling price changes 46
  A1 Econometric estimation within a model 46
  A2 Global Simulation Model 47
  A3 Computable general equilibrium model 49
Annex B: Formal derivation of the first-order welfare effect 51
